CAMILA GILBERT

User Experience Designer

I'm looking to begin my career as an entry-level UX designer to continue refining my design skills and actively contribute to the improvement of user experiences. I am recent college graduate with a passion for creating user-friendly experiences. I have gained valuable experience in key areas such as user research, usability testing, wireframing, and user interface design.

EXPERIENCE

User Experience Design Student

Coursera

June 2023 - October 2023

- Led the development of navigation maps based on user research and identified user needs.
- Developed wireframes and clickable prototypes for mobile applications and websites using Sketch, Adobe XD, and Figma.
- Designed and conducted compelling usability testing sessions to identify user needs and improve overall UX.
- Created a portfolio to showcase my UX Design projects.

Internship - Web Design and Web Marketing

Fragancias y Belleza

Dec 2022 - June 2023

- Redesigned the company's Website.
- Worked in a team developing the company's website with the new design using WordPress.
- Increased the company's social media reach by applying new social media strategies.
- Increased small business sales by building automated marketing campaigns using Facebook, Instagram, and Google AdWords.

Web Design & Development Student

Brigham Young University - Idaho

Jan 2018 - Apr 2023

- Created a dynamic website with PHP and MySQL.
- Maintained course load while working to fund education.
- Developed and designed visually appealing web-based applications using the MEAN web development stack: MongoDB, Express, AngularJS, and Node.js.
- Produced wireframes, HTML code and CSS that contributed to user-centered design (UCD) efforts for responsive Web pages.
